SECURITY STORAGE

Single-Tag KeKab® Series

HPC's Single-Tag KeKab® Key Cabinets provide storage for 8 to 730 keys.
The smaller sizes are perfect for homes, apartments and small businesses. The larger sizes have sufficient capacity for universities, hospitals and large office towers. The cabinets come complete with numbered key tags, key control tags and hardware for wall mounting.

Scan for more info!

Key Tags

The key tags are made of white plastic and are numbered for easy identification.
The bright nickel-plated snap hooks can hold multiple keys.

Heavy-Gauge Steel

All cabinets are constructed of heavy-gauge steel, with piano-hinged doors to provide a sturdy location to secure your keys.

Durable Finish

All cabinets are painted with a unique powder coat process that provides an attractive and durable finish. The neutral sand color fits in any location.

Steel Key Racks

Racks are slotted to store key tags uniformly for immediate identification.

Lock Location Record

Keep track of which door each key opens.

Locking Options

There are many locking options available, including master-keyed, dual-control, keyed-alike, electronic digital lock, 4-wheel combination lock and using your own mortise cylinder. Most cabinets are secured with a 5-wafer, key-retaining cam lock. The 260X-, 500- and 730-key cabinets use a 7-pin tubular T-handle lock.

Key Control Out Tags

These Out Tags are used to record when a key is removed from the cabinet, who has the key and when it is due back. They are printed on yellow card stock.

KeyTrail® 25

Keep track of the keys, the people that hold them and the doors they open with the free sample of KeyTrail® included with each cabinet.

4-Wheel Combo KeKab®

**4-Wheel Combo KeKab®**
No. KEKAB-4W65

The **4-Wheel Combo KeKab®** offers an **economical keyless locking option** for organizing keys. The 4-wheel lock combination has **10,000 available combinations** and a key override, included. The mechanical lock comes with a decoding pin and the combination can be easily changed when necessary. Just like the rest of HPC's KeKab® line, the cabinet is made of heavy-gauge steel and finished with powder textured paint in neutral sand color. The 4-Wheel Combo KeKab® holds 65 keys and comes complete with numbered tags, out tags and control chart.

Horizontal & Vertical KeKab® Series

Vertical KeKab®
No. KEKAB-V50

**Horizontal KeKab®**
No. KEKAB-H48

The Horizontal & Vertical KeKabs are designed for mounting in hard to fit places.

The **Vertical KeKab®** is perfect for narrow areas such as between a doorway and corner. The **Horizontal KeKab®** is perfect for areas such as above or beneath a window. Just like the rest of HPC's KeKab® line, both of these KeKabs are made of heavy-gauge steel and finished with powder textured paint in a neutral sand color. They are equipped with a 5-wafer cam lock and come complete with numbered key tags, out tags and control chart.

All HPC KeKabs come with a free download of KeyTrail® 25, a full function sample version of the preeminent program for managing your keys, the doors that they open and the people that hold them.

Keyable KeKab®

HPC's **Keyable KeKab®** series eliminates the problem of how to control the key to the key cabinet. **This HPC exclusive line of cabinets allows you to add your own mortise cylinder and key it into existing master key systems or key it to the same bitting as another door.** Add a high-security cylinder for extra protection of the keys. The Keyable KeKabs are equipped with a heavy-duty back plate and cam. They are designed to **use standard 1" mortise cylinders**. Longer cylinders can be accommodated by using spacer rings. The mortise cylinder, keys and spacer rings are not supplied with this cabinet. Add convenience and security to the storage of your keys with HPC's Keyable KeKabs. Numbered key tags, out tags and control chart are included.

Digital KeKab®

HPC's **Digital KeKab®** series utilizes an electronic lock to provide a unique combination of convenience and security.

The Digital Lock has many intelligent features. **There are 4 levels of access including the Master Code, Sub-Master Code, User Code and Technician Code.** The Security Lockout feature disables the lock for 10 seconds after 3 incorrect codes are entered.

No wiring or central processors are required. The Digital Lock is operated by two AAA-batteries; **fresh batteries will power 15,000 openings.** A low-battery indicator warns when batteries are low and special jumper ports allow access of external power in the event of battery failure.

Numbered key tags, out tags and control chart are included. With its all-metal construction, your HPC Digital KeKab® is built to last.

The **SlimKab™** Series of key control cabinets utilizes **hooks to accommodate standard key rings**. The cabinets are offered in capacities of 20 to 90 keys, including 2 expandable sizes. The heavy-gauge steel construction and 5-wafer cam lock keep the keys secure. The SlimKabs are painted in a neutral sand color and come with key tags.

Peg Board KeKab®

The Peg Board KeKab® is designed to secure your supply of key blanks. If you use restricted or controlled key blanks or expensive transponder blanks protect your investment by keeping them secure in this cabinet. It is supplied with 24 hooks to accommodate a wide assortment of blanks. The use of peg board on the interior wall allows you to arrange the hooks to fit your requirements. The custom-designed hooks also will prevent the keys from falling off when the cabinet is installed in your mobile shop. The Peg Board KeKab® is made of heavy-gauge steel with a textured powder coat finish and is secured by a 5-wafer cam lock.

SECURITY STORAGE

Two-Tag KeKab® Series

HPC's Two-Tag KeKab® Key Cabinets provide storage for 30 to 500 keys. The hooks in these cabinets hold two tags. The red tag is for the "permanent" key and is designed to remain in the cabinet (except for when used in an emergency or to make a new duplicate). The white tag is for the "loaner" key and is used when issuing keys. The smaller sizes are perfect for apartments and small businesses. The larger sizes have sufficient capacity for universities, hospitals and large office towers. The cabinets come complete with both permanent and loaner numbered key tags, key control tags, cross-reference key control binder and hardware for wall mounting.

Scan for more info!

Permanent Tags

The red plastic tags are sequentially numbered for easy identification. The tags have an integral self-locking key holder to securely fasten the tag to a key.

Loaner Tags

The white plastic tags are sequentially numbered for easy identification. The tags have an integral self-locking key holder to securely fasten the tag to a key.

Key Control Out Tags

The paper Out Tags keep a record of loaned keys. Metal tag holders are included to reinforce the tags when hanging in the cabinet.

Cross-Reference Binder

This 3-ring binder contains multiple listings including the keys, the locations and the personnel that hold the keys, providing complete key control at the facility.

WARNING

Locking Options

The lock options available include master-keyed, dual control and keyed-alike.

Key Collection Bags

The pre-printed plastic bags are used when keys are returned. There is sufficient room to record the tag number, personnel ID number and other pertinent information.

KeyTrail® 25

Keep track of the keys, the people that hold them and the doors they open with the free sample of KeyTrail® included with each cabinet.

Durable Finish

All cabinets are painted with a unique powder coat process in a neutral sand color that provides an attractive and durable finish.

Heavy-Gauge Steel

All cabinets are constructed of heavy-gauge steel with piano-hinged doors to provide a sturdy location to secure your keys.

Large Key Rings

#1

HPC's Large Key Rings are made of half-hard steel with a galvanized finish. The threaded fastener screws either to the left or the right, allowing access on both sides of the ring. The 11" (27.94cm) ring easily slips over your head for carrying around the neck and will hold about 260 keys.

SECURITY STORAGE

HPC's **Wall Safes come in two sizes** and are constructed of heavy-gauge steel. All locking and hinge points are **dual reinforced steel**. The safes are sized to **easily install between the wall studs**, and feature a true flush face allowing a mirror or picture to be hung in front of the safe concealing it from view. They are finished with a **unique texture powder coat painting process** in an attractive neutral sand color. The safes are offered with three different locking options: tubular lock, combination lock and one that allows you to add your own mortise cylinder. The combination lock is a 3-wheel, resettable lock allowing over 750,000 possible combinations. These Keyable Wall Safes offer a unique combination of **security and convenience**. They make it possible to include the safe in a master key system, add a high security cylinder, and/or key it to an existing door.

Medi-Kab™

HPC's **Medi-Kab™** offers a **secure location for medicine and pharmaceuticals**. The welded, heavy-gauge steel construction, rugged piano hinged door, and 5-wafer cam lock assures the contents of the cabinet will remain protected. They are **available in 2 sizes to fit most applications**. Medi-Kabs are stocked keyed-randomly and they **can be master-keyed, keyed-alike or keyed-differently** to meet virtually any requirement. When higher levels of security are needed, **dual-control locks are available**. The powder coat textured painting process is in a neutral sand color finish that is suitable for any décor in a home, office, store, or factory.

Security Locking Bars for File Cabinets

Many file cabinets come without locks, and those with locks can be easily compromised. **Security Locking Bars** from HPC add a substantial level of security to steel or wood cabinets. They are designed for **use on 4- or 5-drawer file cabinets**, and can also be used on cabinets for blue prints, tools, as well as other applications. The Security Locking Bars **include all necessary hardware for easy on-site installation**. They are made of heavy-duty 0.5" x 1.5" (1.25 x 3.75cm) channel steel, finished in a neutral sand color. The hole in the hasp is 5/16" (7.95mm). A padlock is required.

Fire Department Box
No. FDB-511

Every time you install a double-sided deadbolt cylinder you have an opportunity to sell an **Emergency Key Box** from HPC. Double-sided locks offer extra security for restricted areas. However, they can potentially cause life safety issues. Installing an HPC Emergency Key Box at these locations is **the perfect solution when personnel need to enter or exit through these doors in an emergency**. The bright red steel box has a key-locking hinged door with a plexiglas window. When an emergency arises and access to the key is necessary, **break the plexiglas with the attached hammer**. The Emergency Key Boxes **come with a 5-wafer cam lock, keyed-randomly** and they can be **keyed-alike** or **keyed-differently** to meet virtually any security requirement.

The **Fire Department Box** comes with **dark plexiglas to hide the contents**.

Every facility that issues keys to their personnel also has keys returned. The HPC **Drop Box** provides a secure temporary location for the returned keys, **preventing lost, misplaced, and stolen keys**. It is made of heavy-gauge steel and has a charcoal gray baked enamel finish. The slot on the box is **large enough to accommodate keys on a ring** and it has a **security flange** that prevents fishing for keys. Three mounting holes on the back allow the Drop Box to be secured to a wall. It comes with a 5-wafer cam lock, keyed-alike.

Auto Key Keeper™

HPC's **Auto Key Keeper™ will end lost keys at car dealers and parking garages**. Simply lower the window, and slip the back clip over the top edge of the glass. **Closing the window secures the box**, and keys locked within, against all but extreme vandalism. The Auto Key Keeper™ is large enough to **accommodate long automotive keys and remotes**. A high-security 7-pin tubular lock with dust cover offers excellent pick resistance and protection against the elements. An economical 5-wafer cam lock, with dust cover is also available. These boxes are made of **heavy-gauge steel** with a charcoal gray baked enamel finish and a welded hinge to prevent knockout. Specify type of lock preferred.

Keep the keys where they're needed. The HPC **Fleet Security™ Key Vault** is a flush mounted key vault designed to secure a vehicle key where it is needed most...on the vehicle. **Keep your keys secure.** The HPC Fleet Security™ Key Vault body is permanently attached and concealed on the body of the vehicle in your choice of locations. Available in the **original size** and the **new extended length** to better accommodate longer keys and remotes. The container is made of Delrin AF, a unique thermoplastic substance that is **weatherproof** and **will never rust**. The solid steel door is held tight by a high-security tubular lock. The Long Version is equipped with a metal dust and moisture cover. The HPC Fleet Security™ Key Vault **becomes part of the vehicle** and under normal wear and tear **will last longer than the vehicle itself**.
